FIRE AT ILLAHEE PRESERVE

On Monday, September 11, CKFR and Bremerton Fire crews were on scene of a 60x60 brush fire off Riddell Road near Robinson Road NE. At the time, Riddell was shut down in that area. Crews were able to get the one-acre fire in the Illahee Preserve contained and under control.

Reminder:

We are still under a Phase 2 Burn Ban. All burning permits are suspended. All forms of outdoor burning - general backyard or recreational is prohibited. This includes campfires, bonfires or similar recreational burning regardless of location. Charcoal briquettes in approved bar-becues or similar appliances may still be used.

TREE FIRE

On Tuesday, September 12, there was a tree fire off of Blackbird Lane.

Station 41 Crews had to get creative to find ways to extinguish the fire that was back around 600 feet into the woods!

MAINTENANCE SHOP A LOSS AT GOLF COURSE

At 1:00 am on Wednesday morning, Central Kitsap Fire and Rescue received a call of a structure for at the Rolling Hills Golf Course on NE McWilliams Road, Bremerton. Upon arrival, Crews observed heavy fire coming from the maintenance shop and threatening a home approximately 10 feet away. While firefighters were able to keep the home safe, the shop is a total loss.

The home is occupied by on site managers. They were able to get out safely with their three dogs. The County Fire Marshal will be investigating the cause of the incident. Bremerton Fire, Navy Region Northwest, and Poulsbo Fire were also called to assist.

Eight Guidelines to Involve Your Team in Creating Vision and Strategy

Author: Jesse Lyn Stoner | Aug 15, 2017

Article Source: https://seapointcenter.com/involve-your-team-in-creating-vision/?platform=hootsuite&utm_content=bufferc7ce6&utm_medium=social&utm_source=twitter.com&utm_campaign=buffer

1. **Don't wait to figure it all out before you share your ideas.** If you have a good sense of what's important and why, before you figure it all out, talk about it with your team. Don't try to sell your ideas. Talk about what honestly excites you. Your vision will become clearer for you and others will begin to think about their own ideas and hopes.
2. **Create opportunities for discussions.** Discuss it with your team informally. But also put the topic on a meeting agenda and devote an extended amount of time for it. This is an opportunity to step back and think together. Encourage your team to look beyond the scope of their individual roles and responsibilities and to consider the big picture.
3. **Instead of giving answers, ask questions.** Ask clarifying questions to make sure you really understand what people are saying. Ask focusing questions such as: What do they think is the purpose? What values do they believe should guide behaviors? What would be happening if the team were magnificent? Point out the commonalities so people are aware of how their ideas and hopes resonate with each other.
4. **Examine your own behavior.** As you become clear about your vision, you must act consistently with it. If you want people to believe you are serious, you must be conscious of *all* your actions great and small. People pay more attention to what they see you do than to what you say. And by modeling the vision, you are demonstrating what it looks like in real life.
5. **Recognize you do not own the vision.** If you want a shared vision, others must feel they have participated in shaping it. You can and should care deeply, but quite likely they will have a perspective that will enrich the vision and make it stronger.

THRILL DRILL

FROM CAPT. GOODWIN: On Wednesday, we completed training on search and rescue techniques in the mazes set up for the upcoming haunted house event. The evolutions were conducted in complete darkness adding to the challenge of navigating the maze, maintaining orientation, and identifying and removing an unconscious victim.

CKFR's **DEADLIEST** **CATCH** **SEASON 1**

Forty-foot waves, hurricane force winds, and heavy-machinery are just a few reasons that no season is ever the same...more on the Columbia River Bar. Surrounded by the threat of death and injury, these brave men struggle to return alive from man's oldest journey...

FROM DC OLIVER: The wives all went and we brought back 120 keeper Dungeness Crab. We caught so many crab we had to clean them with a tractor!
