Electronic Meeting 4:00  
Instructions at [CKFR.ORG](http://CKFR.ORG)

## "ROAD 11 FIRE"

BY: *PIO LIMARZI*

CKFRs Brush 56, staffed with Paramedic Stanley and Firefighter Dalle, was dispatched to Eastern Washington to assist on the "Road 11 Fire" in Mansfield (East of Chelan).

It was originally a two week deployment, but fortunately, their assistance wasn't needed for long and the Strike Team returned home Tuesday night.

# Congrats to Master Chief Wildes!

Congratulations to PM Jeff Wildes who was advanced to the rank of Master Chief in the United States Coast Guard. He has served the country as a reservist for 23 years.

*"The individual I'd like to recognize and pass the Slam Dunk Award to, is very dedicated, reliable and committed to the Organization. I also wanted to select someone who challenges me and makes me overall, better. I know sometimes the methods and precautions might seem frustrating at times, but there is truly a reason and method to the madness. So, in keeping the Organization Safe/Healthy, always challenging me for the better, and just as dedicated, reliable and committed as Lieutenant Commander Data, from Star Trek, I would like to pass the Slam Dunk Award over to our Finance Director, Tim Maule." - Joe Caulkins*

**CLASS B UNIFORM: Chief Officers, PIO & Chaplains**

Class B's shirt, black in color. Patches on the left and right shoulders 1" below the seam. A cloth or metal badge indicating rank above the left pocket. Member name above the right pocket.

T-Shirt, black in color. CKFR logo on the chest, left side. Central Kitsap Fire lettering across the back.

Pants, black in color.

New updated **SOP 6-23 Uniform Regulations** is out for review in Target Solutions (take notice of the chief officers moving away from white tops and into black tops).

**Notes from the Training Division:** CKFR's Training Division has ramped up crew-based training in July. We were able to complete the following:

- Tender and Drafting evolutions at Station 41 and Station 56
- Vertical Ventilation at Station 51
- Vehicle Stabilization and Extrication at Stations 41, 51, and 56
- Firefighter Self-Rescue at Station 41
- All sorts of Probationary Firefighter sign-offs

In the next two weeks, CKFR crews will be participating in our Vehicle Stabilization and Extrication drills at the Bremerton Training Center. We have three buses (kindly donated by Central Kitsap School District) and twenty cars. R64 personnel will be leading the drills with L51 crews assisting.

The forecast is for lots of sunshine, so make sure you stay hydrated before, during and after the drills. Rehab 41 will be in attendance both weeks to support our crews.

The Training Division will be putting on the Pump Academy on October 5th through the 8th. If you are interested in attending, submit a training request through CK Share.

**BE SAFE AND HAVE FUN!**
